Porsche Classic

Maintenance, restoration, genuine parts and technical literature for your classic Porsche

It's just about cars.
That's what we've been telling ourselves for years anyway.

Porsche Classic.

Porsche Classic.

356. For millions of people in the world, this is just a number. For some, though, it symbolises a spirit of engineering beyond technical description. For them, it is the legend of the Porsche 356.

Why are we telling you this? Because real classics need special care. We are dedicated to providing you and your

Porsche with a place you can turn to for service and assistance in a historical location. A place that meets your requirements with regard to Porsche quality repairs, maintenance, care, restoration and genuine parts. Not just for the 356, but for all Porsche vehicles for which standard production was generally discontinued at least 10 years ago.

In other words, the 356, 914, 959 and 911 up to and including Types 964 and 993, as well as all four and eight-cylinder Porsche road vehicles such as the 924, 928, 944 and 968.

For you, this means one thing above all else: that your Porsche is in expert hands. And you are not alone. Porsche owners around the world and the Porsche Museum

have placed their trust in this unique fund of knowledge and experience acquired over decades. After all, a deep and meaningful relationship simply cannot be maintained through fleeting contact.

For further information on Porsche Classic, please visit your nearest Porsche Centre. We look forward to getting to know you and your classic Porsche.

Classic workshop.

The aim of Porsche Classic is the maintenance and care for historic Porsche vehicles. Decades of experience with these classic cars make us a reliable partner for the service, repair and restoration of Porsche production cars.

In order to meet all customer requirements, our specially trained staff and state-of-the-art workshop are available to deal with all aspects relating to your classic Porsche. We assure expert advice, support and high-quality service and repairs.

Of course, the quality of our services is of the high standard you'd expect from Porsche. We also do our utmost to ensure that everything is as simple and clear as possible.

Service and maintenance.

We adopt a comprehensive concept and therefore take regular inspections and

maintenance just as seriously as a restoration project. A high level of care and attention is always ensured. Our services range from accident repairs to a dent and hail damage repair service, body repair and painting. We also look after your vehicle on the inside – from engine repairs to interior revision.

Our goal: as good as new.
But with even more character.

Classic workshop.

How will we treat your vehicle?
As if it were still ours.

Restoration.

Restoration.

We utilise original sets of tools, gauges and data sheets while working in a high-tech workshop. For example, we can use a cataphoretic bath to offer maximum

corrosion protection and also have our own upholstery section. All work carried out on your vehicle is done so by Porsche AG to the usual high standards of quality and authenticity, and is documented in detail:

with a full restoration you receive a certificate in an exclusive case as well as a high-quality book containing all of the documentation relating to the work on your vehicle.

We also offer partial vehicle restorations as well as engine and/or transmission restoration – for further queries, please contact us at classic-service@porsche.de.

Classic Genuine Parts.

Porsche has timeless appeal. In fact, two thirds of all Porsche vehicles ever made are still on the road today. This is a testament to Porsche and Porsche enthusiasts everywhere. To ensure this continues to be the case, Porsche Classic supplies parts worldwide.

We procure these genuine parts from former production parts suppliers. If this is no longer possible, we try to find new

supply sources. Naturally, we ensure that Porsche standards are met in terms of technology, quality and safety.

Our work is based on original documentation, technical drawings and detailed descriptions, as well as a comprehensive store of samples. Approximately 35,000 parts and components at our state-of-the-art warehouse are ready for despatch through our worldwide network directly to your Porsche Centre. This

comprehensive service makes it easy for you to enjoy your Porsche.

Literature.

Porsche Classic also provides technical literature. Around 800 instruction manuals, maintenance booklets and repair manuals can be ordered directly from your Porsche Centre.

A Porsche Genuine Parts Catalogue is published twice a year on CD-ROM.

It contains PDF files listing all parts as well as a search tool and technical archive. To view the parts catalogue for your Porsche, visit our website at www.porsche.com/classic.

Why do we call our parts genuine?
Because they are designed for something irreplaceable.

Classic Genuine Parts.

New editions of parts.

Porsche Classic continuously monitors, updates and extends its range of spare parts.

Relaunches of parts in particular pose an exceptional challenge for the

Porsche Classic staff. They have to determine the market demand, review historical documents in the Porsche Development Archive and check the availability and condition of original tools. In many cases, a new supplier needs to be found or new tools manufactured. This involves thorough

and comprehensive technical checks. This is because Porsche Classic Genuine Parts are subject to the same quality standards as current Porsche genuine parts. Safety-relevant parts are extensively tested at the Porsche Development Centre in Weissach. During production, increased statutory

requirements must be observed, e.g. bans on certain materials when manufacturing spare parts. Each genuine part has its own story to tell, just like your classic Porsche.

**Each genuine part has its own story to tell.
With a happy ending, of course.**

New editions of parts.

**Ageing in style.
A good cause for celebration.**

Classic events.

Classic events.

Porsche Classic regularly attends a number of established events, along with our specialists who are happy to answer all your questions and offer you an insight into the world of Porsche Classic. Events include Techno Classica in Essen, the world's

leading show for classic cars. Naturally, you'll also find us at the AvD Oldtimer Grand Prix at the Nürburgring – one of the most prominent international racing events for historic vehicles, which attracts around 1,000 Porsche enthusiasts every year.

Porsche Classic Clubs also organise a number of classic Porsche events and trips for their members such as Classic rallies. Other highlights of the Classic scene include the annual international 356 meet hosted by a different country each year.

We offer all this for your classic Porsche and much more besides. Use our website at www.porsche.com/classic, for example, for your research or as a source of information about Porsche Classic events.
